

Training KM: k=7, alpha=0.35, ntop=ALL

Strata + Low - High

Number at risk

Strata	Low	High
Low	266	90
High	7	0
	12	0
	4	0
	0	0

Time

0 20 40 60 80

0 20 40 60 80

This table provides the number of individuals at risk for each stratum (Low and High) across different time points. The data shows that all individuals in the High stratum have discontinued by time point 40, while the Low stratum has a remaining number at risk of 4.
