

### Puleo\_array Factor 1 (logrank cutpoint)

A. Enrichment relative to marginal

B. DeCAF by PurlST x Risk group

Fisher Classical:  $p = 3.7e-05$  Fisher Basal-like:  $p = 0.206$

C. Sample counts

	High	Low
Classical / restCAF	115	20
Classical / proCAF	62	39
Basal-like / restCAF	7	9
Basal-like / proCAF	9	27

Risk group
