

Training KM: k=6, alpha=0.25, ntop=ALL

Strata + Low - High

Number at risk

Strata	Low	High
Low	230	88
High	43	2

Time

0 20 40 60 80

0 20 40 60 80

This table provides the number of individuals at risk for each stratum (Low and High) across different time points. The data is summarized from the Kaplan-Meier survival plot above.
